Generative AI Engineer building AI agents, voice AI applications, and LLM-powered backend systems, with hands-on experience in RAG, agentic workflows, and deploying production-ready AI applications.

Skills

Programming	Python, C/C++
CS Fundamentals	Data Structures & Algorithms, DBMS, Computer Networks
AI & ML	RAG, LLMs, AI Agents, Agentic Workflows
Frameworks	Google ADK, LangChain, LangGraph
Backend Development	Flask, FastAPI
Cloud & DevOps	GCP (Cloud Run), AWS (EC2, S3, IAM)
Databases	SQL, NoSQL, SQLite, Firestore
Tools	Git, Postman

Experience

Droisys | AI Intern Noida | June 2026 – Present

- Engineered multi-agent AI systems and LLM-powered workflows to automate internal business processes.
- Built an AI voice interviewing system that conducts 10–15 minute first-round interviews over phone calls and autonomously advances candidates through the hiring workflow.
- Developed FastAPI backend services for LLM inference, orchestration, and multimodal AI pipelines.

Technical Projects

Archon: AI Knowledge Assistant GitHub

Python, Gemini LLM, FAISS, BM25, LangChain

- Built a production-ready RAG pipeline enabling chat over 50+ documents.
- Implemented hybrid search (dense + sparse) improving retrieval precision over standard vector search.
- Leveraged Google Gemini 2.5 Flash for lightweight and efficient generation across technical document collections.

DevPilot: Multi-Agent Developer Onboarding GitHub

Python, Google ADK, Gemini 2.5 Flash, PostgreSQL, ChromaDB

- Architected a multi-agent system that routes queries and integrates with the GitHub MCP for repository analysis.
- Built an autonomous Text-to-SQL agent for PostgreSQL schema introspection and environment troubleshooting.
- Built a Streamlit interface featuring a RAG ingestion engine, instantly converting documents into ChromaDB embeddings for vector search.

Education

GL Bajaj Institute of Technology and Management Greater Noida, UP

B.Tech (Artificial Intelligence & Machine Learning) Oct 2023 – 2027

Trainings & Certifications

AWS	Cloud Foundations
Udemy	AI Engineer Core Track: LLM Engineering, RAG, QLORA, Agents
